- Community Support Systems in Later Life

#### Summary

---

**Bert Hayslip Jr.** is a Regents Professor of Psychology at the University of North Texas, where he has been on the faculty of the Department of Psychology since 1978. Dr. Hayslip teaches undergraduate courses in adult development and aging as well as the psychology of death and dying. His research interests include intellectual functioning in late life, gerontological counseling, the assessment of death anxiety, grandparenting, life events in adulthood, and grief and bereavement. He is a Fellow of the American Psychological Association, the Gerontological Society of America, and the Association for Gerontology in Higher Education.

**Paul E. Panek** received his Ph.D. in psychology from the University of Akron. Currently, he is Professor of Psychology at the Ohio State University at Newark. He has extensive publications in the areas of adulthood and aging, and mental retardation. During his academic career he has received awards for teaching and research. In addition to his academic credentials he is a licensed psychologist in the states of Illinois and Ohio with over 20 years experience as a consultant in the areas of aging and mental retardation.

**Julie Hicks Patrick** received her doctorate in developmental psychology applied cognitive aging from the University of Akron. She has held appointments as project director for three federal grants related to family caregiving in Cleveland, Ohio and Peoria, Illinois (Bradley University). In 1998 she joined the faculty at West Virginia University, where she is now a Woodburn Associate Professor in Life Span Psychology. Dr. Hicks Patrick’s research includes questions in social cognition, family caregiving, and successful aging. She teaches graduate and undergraduate courses in the areas of aging and cognition.
THRIVING ON AN AGING WORKFORCE: Strategies for Organizational and Systemic Change

Edited by Paulette T. Beaty & Roemer M.S. Visser

This book speaks to the adults who deal with children of divorce—parents, therapists, attorneys, and judges—and gets them all on the same page. The authors believe that parents and professionals should be able to communicate with a common language regarding the children of divorce. This book contains much specific advice on how to achieve basic goals: children should have a good relationship with both parents; divorced parents should find ways to make life as normal as possible for their children; and divorced parents and their children should accept the inevitable losses and disappointments and move on with their lives. Children of Divorce is organized around the use of parenting plans, agreements that are developed through the collaboration of the parents rather than imposed by a judge.
